(54) Title: WOUND CARE PRODUCTS CONTAINING KERATIN

(57) Abstract: The invention relates to a wound care product that provides a biochemical environment around a wound to promote wound healing. The wound care product includes a keratin protein fraction material in which the protein fraction is intact, is from the intermediate filament protein family or the high sulphur protein family and in which the protein fraction is s-sulfonated. The invention also describes a method of making a wound care product.
